WATERWORKS

CERAMIC TILE

All our Concord waters have two colors at least;  
one when viewed at a distance, and another, more proper,  
close at hand. The first depends more on the light, and follows the sky.  
In clear weather, in summer, they appear blue at a little distance,  
especially if agitated, and at a great distance all appear alike.  
In stormy weather they are sometimes of a dark slate-color.

# COTTAGE

Cottage tile takes its inspiration from architectural elements of the Gothic Revival style, which was in turn derived from medieval castles and churches and then widely popularized in adapted forms in nineteenth century English dwellings. It was an exuberant, architectural expression, highly decorative and playful, that marked a clear departure from classical rigidity. While its most distinctive forms were pointed arches, flying buttresses, trefoils, quatrefoils, vaulted ceilings, garden follies, and multi-faceted windows, it would eventually influence everything from furniture to wallpaper and teapots.

Patterned after some of the quintessential elements of Gothic architecture, Cottage is made ready for the twenty-first century in a style informal yet tailored, traditional with a twist, at once surprising and familiar. As the Gothic vernacular spread across Europe and America, it adapted to new environments, and so too does Cottage. Its system of bead-board wainscot can be arranged vertically to evoke the classic seaside cottages of New England, or in horizontal patterns, for a uniquely modern look, well-suited for town or country.

Cottage is a handmade tile with beautifully articulated details. The soft, appealing, and slightly mysterious colors are intended for full-wall installations with white trim for an authentic Gothic Revival style. There is a contemporary feel to the textured field tiles, as well as the diamond shape and the slim  $1\frac{3}{4}'' \times 6''$  brick.

Out of the Gothic Revival comes a Cottage revival, a refined, architectural system with an imaginative perspective.

COTTAGE DECORATIVE TRIM IS INSPIRED BY ARCHITECTURAL MOTIFS OF THE GOTHIC REVIVAL

In traditional applications of Cottage ceramic tiles, fields of solid-colored tiles are framed by white decorative trim in various combinations of liners, rails, borders and bases. The trim, in the shades of Dover White and Devonshire Cream, offsets the deeper hues of the field tiles, in Skye, Artemisia, Windermere and Linen. In the Waterworks 'Mudroom', the muted palette and Gothic Revival proportioning exude a casual elegance.

**RAILS, BASES AND PLANKS ARE  
INSPIRED BY NEW ENGLAND CLASSIC  
WAINSCOT AND BEAD-BOARD**

In a classic application of Cottage tiles, 30" x 6" ceramic planks are installed vertically in the style of classic bead-board wainscot, framed by rails and bases in matching colors. Set above the wainscot, an array of field tile in a contrasting shade gives a crisp and clean look, or, in a slight shift in color, produces a softer, tonal effect.

The Cottage mosaics, both in square grids and offset brick patterns are ideal solutions for classic flooring or patterned walls.

**COTTAGE TILES ARE DESIGNED IN GRID PATTERNS, CREATING FIELDS OF COLOR AND TEXTURE**

In a modern composition of Cottage tile, colors, shapes, and textures are isolated and repeated to accentuate their sculptural lines and sensual surfaces. The result is luxury unadorned. Drawing its inspiration from nature, the Cottage palette is infused with the calm and neutral colors of clouds and sandy beaches at dusk, while the motifs of the decorative field tiles create undulating, soothing patterns. The Waterworks 'Home Spa' is both sleek and understated, with its striking use of decorative field tile paired with a simple grid of smaller 4" x 4" tile, making a shower into a sublime retreat. This is a modern bath experience at its most refined.

**INSTALLATION:** IT IS THE PURCHASER'S RESPONSIBILITY TO INSPECT ALL TILE PRIOR TO INSTALLATION. PLEASE NOTE THAT USE CONSTITUTES ACCEPTANCE. WATERWORKS RECOMMENDS USING A LICENSED AND EXPERIENCED TILE SETTER IN HANDMADE TILE. PLEASE FOLLOW STANDARD INSTALLATION PROCEDURES BY THE HANDBOOK FOR CERAMIC TILE INSTALLATION AND ANSI SPECIFICATIONS. BLEND ANY COLOR VARIATION BY DRY LAYING THE TILE PRIOR TO INSTALLATION. THIS WILL ENSURE A PLEASING OVERALL LOOK AND SERVE AS A PREVIEW OF TILE PLACEMENT. TILE MAY BE INSTALLED WITH ANY HIGH QUALITY, CERAMIC TILE ADHESIVE SUITABLE TO THE APPLICATION INTENDED. SANDED GROUT IS RECOMMENDED, WITH A SUGGESTED GROUT JOINT OF 1/8". TO HELP KEEP GROUT JOINTS TIGHT WITH A HANDMADE TILE, OFFSET THE JOINTS BETWEEN FIELD TILE, TRIM AND ACCENT ROWS. SEAL THE GROUT JOINTS WITH *MIRACLE SEALANTS POROUS PLUS* AFTER INSTALLATION TO ACCOMMODATE EASE OF MAINTENANCE. THE SEALANT CAN BE WIPED OFF THE GLAZED SURFACE OF THE TILE AND WILL NOT HARM OR CHANGE ITS APPEARANCE.

**CARE AND MAINTENANCE:** WALLS AND COUNTERS SHOULD BE CLEANED REGULARLY WITH A NON-ABRASIVE, MILD, PH NEUTRAL CLEANSER. VACUUM FLOORS REGULARLY, AND DAMP MOP WEEKLY. DO NOT USE ANY CLEANING PRODUCT THAT CONTAINS BLEACH, ACIDS, OR CITRUS ADDITIVES INCLUDING CITRUS SCENTS. REAPPLY *POROUS PLUS* SEALER TO JOINT GROUTS PERIODICALLY AS NEEDED. WHEN WATER NO LONGER BEADS UP ON JOINTS, RESEALING IS REQUIRED.
