DESIGN

Inspired by the stepped detail of 19th century telescopes, Aero is a combination of historical reference with a contemporary temperament. The result is original and modern, bringing a look of updated elegance to the bathroom.

FEATURES

Brass metal is used for all trim and valve components.

Optional materials for handles include ebony and semi-precious stones.

The manufacturing process encompasses casting, turning, forging, hand-fitting and hand polishing.

The signature gad-rooning detail on the escutcheon is used throughout the entire range.

An extensive range of fittings and accessory options for the lavatory, shower, and bathtub.
