- WATERWORKS ASSUMES NO RESPONSIBILITY FOR INSTALLATION

- Tile should be installed by a licensed and experienced tile setter.
- Refer to TCNA (Tile Council of North America) or ANSI standards for installation guidelines.
- All tile must be inspected PRIOR to installation.
- Dry lay tile prior to installation to allow for blending of color variation.
- Tile should be sealed PRIOR to grouting. Dark grout can stain crackle tile.
- Waterworks recommends a grouted test panel prior to installation to understand final appearance of grouted materials
- Re-seal tile and grout after installation and maintain regularly.
