Foro Ceiling Mounted 10" Shower Rose, Arm and Flange

**STYLE No. FRSH03**

Foro Ceiling Mounted Shower Arm and Flange

**STYLE No. UNSH21**

Universal 10" Shower Rose

**IMPORTANT:**

- To ensure this product is installed properly, you must read and follow these guidelines.
- The owner/user of this product must keep this information for future reference.
- This product must be installed by a professional licensed contractor and must be onsite prior to rough-in, this allows the installer to visualize the installation.
- Be sure your installation conforms to federal, state, and local codes. In the State of Massachusetts, all installations must comply with the rules and regulations set forth within 248 CMR.
- Inspect this product to ensure you have all the parts required for proper installation. Product is sold partially assembled but shown fully disassembled for illustrative and service purposes only.
- Use only a strap wrench or protected/smooth-jaw wrench on any finished surface.
- The use of certain plumber's putty may stain stone or tile surfaces.
- If further assistance is required, please contact Product Support at 1-800-927-2120 Monday through Friday, 8am - 6pm EST.
- Refer to the separate Service Parts Documents for available replacement parts.

STYLE No. UNSH21

Universal 10" Shower Rose

- Slide the ESCUTCHEON and RUBBER WASHER onto the SHOWER ARM.

**CAUTION:** The threads on the inlet end of the SHOWER ARM are longer than the outlet end.

- Making sure the ELBOW (not supplied) is properly roughed-in, thread and securely tighten the SHOWER ARM into the ELBOW.

- Turn on the water and a diverter/wall valve (sold separately) to flush out any debris in the supply line and inspect all connections for leaks then turn the water off.

- Insert the RUBBER WASHER into the PIVOT JOINT on the SHOWER HEAD then thread and securely tighten the PIVOT JOINT onto the SHOWER ARM.

**NOTE:** A FLOW REGULATOR is located inside the PIVOT JOINT.

- Turn on the water and operate the SHOWER HEAD to ensure it pivots and functions properly. Inspect all connections for leaks then turn the water off.

- Slide the ESCUTCHEON along the SHOWER ARM until it contacts the finished ceiling.

† A RUBBER WASHER for the ESCUTCHEON is provided. If desired, a bead of caulk or a clear silicone may be applied where the ESCUTCHEON contacts the finished ceiling.
